

Enable your hybrid workforce with Microsoft 365 Business

“With Microsoft 365, we are positioned to grow our programs confidently in the future. We have the digital platform, collaboration tools, and security we need to focus on our mission.”

– Gerald Garth, Manager of Policy, Training, and Operations, The AMAAD Institute

It’s simple: business growth today depends on bringing people together

Hybrid work is a new reality across industries. Barriers to efficient collaboration like distance, time zones, devices, and office location are fading as businesses undergo needed digital transformations. Talented workers expect to join digital workforces, and customers expect to interface seamlessly with your business. Microsoft 365 Business empowers your team to collaborate effortlessly with each other and customers. Modernize your business by:

- Empowering a hybrid work culture
- Uniting your team’s work experiences
- Advancing important work with secure remote access to project files
- Keeping devices up to date and secure

Just want Microsoft Teams? Get Microsoft Teams Essentials

Do everything together in one place with Microsoft Teams Essentials. At \$4 per user/month,* experience the best of Microsoft Teams in one affordable subscription. Get more productive one-on-one, in small groups, or with up to 300 people, and ensure your team can contribute with enhanced virtual meetings. Innovative features encourage engagement and improve teamwork. Integrate your favorite business apps to eliminate context switching.

Hybrid work is here to stay

A digital transformation is inevitable for most small to medium businesses.

- 73% of employees want flexible remote work options to stay¹
- 84% of business leaders are investing in digital tools to support hybrid work²
- Remote opportunities are more attractive to diverse applicants¹

Overcome challenges of a hybrid work environment

- How do you meet employee needs for remote flexibility and in-person collaboration?
- How do you keep data secure with remote work?
- How do you keep your team engaged when working remotely?
- How do you avoid miscommunication?

Unify remote and in-person collaboration with a single platform

Take location out of the equation by relying on Microsoft 365 Business to enable the connections that matter.

- Support engaged and effective collaboration with Microsoft Teams
- Simplify security across devices with intelligent tools
- Empower a workforce where everyone is heard

Support a hybrid work culture with a seamless digital transformation, powered by Microsoft 365 Business and Microsoft Teams Essentials

Empower your team to be productive anywhere

- Improve team engagement by providing better ways to connect
- Hold hybrid meetings that work for everyone no matter where they are
- Facilitate effective virtual meetings with live captions, reactions, and polls

Enable secure remote access across devices

- Secure endpoints and protect data from increasing attacks with Microsoft Defender for Business
- Safeguard confidential data with email encryption and data loss prevention tools
- Reduce costs with a single, streamlined solution

Choose the right productivity tool for your business needs

- Microsoft 365 Business Basic at \$6 per user/month*
